PREFACE.

This volume of Portsmouth Records is issued in accordance with a vote of the General Assembly of the State of Rhode Island, passed May 26, 1899, as follows:

Resolved, That the sum of one thousand dollars or so much thereof as may be necessary be and the same is hereby appropriated, out of any money in the treasury not otherwise appropriated, for the purpose of indexing, printing, and binding five hundred copies of the early records of the town of Portsmouth, to be done under the direction of the librarian of the Rhode Island Historical Society; and the state auditor is hereby directed to draw his orders on the general treasurer for said sum or so much thereof as may be necessary, upon the presentation of vouchers approved by the secretary of state."

The movement to preserve in permanent form the earliest records of Portsmouth was started long before the passage of the General Assembly act. Nearly two years before, a request was made of the Portsmouth town council that the oldest book of records should be temporarily surrendered to the Rhode Island Historical Society, in order that an exact copy of the same might be made. On September 13, 1897, upon petition of Amos Perry, this request was granted. Within a few months a copy was made, and on May 26, 1899, the General Assembly recognized the value of the undertaking by authorizing the printing of five hundred copies of the volume.

This old book of records, in spite of its long period of usefulness, is yet fairly well preserved. Its evident lack of covers during a part of its existence has permitted perhaps two dozen pages at each end of the book to become frayed and torn, some almost to the inner edge. The present substantial binding was put on during the term of Richard Sherman as town clerk. Since that time the volume has been carefully kept, although the age and brittleness of the paper have rendered it liable to constant danger. That a few of the leaves have become torn and lost, even since then, may be seen by comparing the present transcript with that made by John R. Bartlett in editing the *Rhode Island Colonial Records*. Mr. Bartlett, in transcribing a portion of the records from 1639 to 1646, evidently had access in 1856 to a somewhat less mutilated volume than the existing one. A careful comparison, however, will show that the transcript in the *Colonial Records* is not at all to be relied upon for accuracy.

The volume, as it exists to-day, is one of great interest and local historical importance. Although the larger part of the book is taken up with the proceedings of the town council, there are also included hundreds of miscellaneous records—deeds, wills, inventories, powers of attorney, indentures, and ear-marks—all of additional value to the student of history and genealogy. The book was evidently used at the same time for different purposes. The council records begin with the year 1639 at one end of the volume and run until the year 1695, when they are met by miscellaneous records that had in the meantime been begun at the opposite end of the volume. The council's proceedings from 1695 to 1697 are scattered throughout the remainder of the book, wherever a blank space would permit. In one case an

entry for the "13th of the first month, 1697," was made directly after an entry for the year 1642. (See page 19 of this volume.) But the word "1697" having become torn off, the record reads as if it had been entered under 1642. For convenience, therefore, in finding the proceedings of a certain town council, a chronological table of town-meetings is annexed to this preface.

In transcribing the volume, the spelling, capitalization, and punctuation of the original have been rigidly adhered to. When the volume was first transmitted to the Historical Society, it was carefully repaged in red ink; and this pagination, which may now be deemed the original pagination, is indicated in the present text by heavy type within brackets. The dates at the upper corners of the pages are inserted merely for convenience in reference. The signs and abbreviations used mostly explain themselves. Brackets enclosing a blank space are used whenever the text is torn or illegible. The "marks" of persons unable to write, are reproduced as far as practicable in fac-simile. The reproduction of a circle, with the word "seal" inside, does not mean that the seal itself is in the text, but that the town clerk thus indicated what he himself had seen upon the original document that he copied. Certain signs, like ꝥ for the syllable containing the letters *pr* with a vowel, and \bar{m} for *mm*, have been preserved. The reader should constantly remember the facts about double-dating and the change in the calendar. According to the Julian calendar, the year began on March 25. March was the first month and February the last month of the year. But since January was historically, if not legally, the first month of the year, all dates falling between January 1 and March 24, inclusive, were double-dated. February 14, 1675, was written February 14, 1674/75. Upon the introduction of the Gregorian

calendar in 1752, January became legally the first month of the year, and double-dating ceased.

As I write the closing words of this preface, I realize that it has merely fallen to my lot to complete a task so well begun by others. To Hon. Amos Perry, my predecessor in the position of librarian of the Rhode Island Historical Society, is due a large portion of the credit of preserving this volume in its printed form. Through his own energy and enthusiasm he raised a sum sufficient to meet the expenses of the first transcript, and under his able supervision the book was planned and begun. But scarcely had the printing commenced when death intervened and he was called away. During the interval preceding the choice of his successor, the volume was edited under the direction of the members of the library committee—William D. Ely and Henry R. Chace. Soon after my entrance upon the duties of librarian, a great calamity occurred, and the volume, which was confidently expected to appear in the spring of 1900, was delayed for nearly a year. All the signatures as far as page 257, which were stored at the state bindery, were consumed in the Snow & Farnham fire of January, 1900. Fortunately a duplicate set of signatures had been preserved, and after the state had made an appropriation to reprint the thousands of burned documents and reports, the work was begun all over again in May, 1900. Several changes, made possible by the complete reprinting of the volume, were introduced, but the original plan has been generally adhered to.

The labor of transcribing the volume has been entrusted to Katharine H. Austin. Her skill in deciphering ancient records, and her natural carefulness and discernment, have rendered her

exceptionally well qualified for the task. The state is fortunate, indeed, in having been able to obtain the services of one so painstaking and accurate.

Thanks are due to William D. Ely and to Henry R. Chace, for the efficient manner in which they directed the printing of the book just after Mr. Perry's death, and especially to the latter gentleman for his kind offices in originally procuring for us the ancient volume. Acknowledgment should also be made to Edward Field, for many helpful suggestions; to William F. Brayton, the present town clerk of Portsmouth, for his forbearance in allowing the volume out of his custody during the process of reading the proof; to the Portsmouth town council, for their courtesy and interest in the matter; and to E. L. Freeman & Sons, the state printers, for the typographical excellence of the book.

In conclusion, I would call attention to the almost imperative duty of preserving in permanent form the oldest records of our towns. The fading of the ink, the crumbling of the paper, and the ever present danger of fire are inevitable barriers to the extreme longevity of any manuscript volume. Indeed, the loss of public records from this last cause alone, considered in the aggregate throughout the whole country, is little short of appalling. If but one copy of a volume exists, then its life hangs upon a single thread. The only way in which effectually to preserve the volume for present and future generations is to multiply the number of copies, and this the many improvements in the art of printing have enabled us to do at a comparatively low cost. In this state of Rhode Island, the matter is of especial importance. The peculiar structure of government of our colony, in its earliest days, has made the records of the towns the chief, and often the

only source for a study of the history of the colony. Of our four earliest towns, the records of Providence have been published, those of Portsmouth are now in print, and those of Newport are irrevocably lost. The records of Warwick alone remain. The oldest manuscript volume in the possession of that town is less known to the historical student than any other of our earliest town records. While certain portions of it have never as yet been deciphered, the historical importance of the volume is unquestioned. It is certainly the duty of the people of this state to see to it that the contents of this valuable Warwick volume should be preserved in permanent form before it is too late.

Wee of the Comētee Chosen at A meeting of the free inhabitants of the Town of Portsmouth on Rhode Island at the house of William Cory the 12th of January 169 $\frac{3}{4}$ to Lay out the South-side Into Small Lots and also to consider and draw up in wrighting some fare honest & Legall method and convenient way for deviding all or part of y^e Rest of our undevided Lands in this Township in such maner And proportions as wee in our understandings Shall Think most Convenient, In persuance of Said order wee have Severall times met And having considered the premises, wee cannot Satisfie our Selves that any fare and Legall corse can be for deviding y^e whole by Reason of Some watring places for Cattell and other generall Conveniencies to y^e Inhabitants of Said Town, but having Sarched the booke of Records doe finde that the fformer way & method hath been to grant to pertickuler persons in Said Town and Therefore wee Think it the most convenient way, first to grant to Every free inhabitant that is A present freeholder y^e quantety of Twelve Acres of Land at the Least. and more According to quallity and to be Aded Adjoyning to Each freehold where it may be done without prejudece to their neighbours, and where it cannot be Joyned to the freehold, then to be Layd out to such in y^e neerest Convenient place that may bee: And as for Such persons as have Land in this Township and are not present freinhabitants and y^e proper owners of s^d Land comes to make demand for their Rights in y^e undivided Land they Shall be considered and have their part according to y^e discession and Judgment of the comettee or disposers of Land or the major part of them that Shall be chosen & appointed to act and doe in the premises herein declared: wee Think it Convenient that the Town choose A survaior with two or three able men to Assist him in Lay ing out Said Land Equally and Justly according to quallity that noe free holder may be wronged. And that Every person or persons that hath his Land Layd out pay two Shillings pr Acre According to the former custom in Said

Town, for to defray the Charge of Survaing and Laying out. And the Said money to be paid into this Town Treasury for to defray any other Charges that may Arise in this Town: The above written is voted

voted major John Albro chosen surveyer to Survey the above mentioned Land and Lay it out according to voat

voted George Brownel, William Wodell, and George Sisson, are Chosen to be helpfull to the abovesaid surveyer in Laying out the above written proportions of Land according as it is their Directed

voted this meeting is dissolved: Latham Clarke, Gidion freeborn, and Giles Slocum doe utterly protest Against the proceeding of this meeting concerning Laying out of any of our undivided Land in this Township

[Here cease the records of town meetings, with the exception of a few, chiefly of later date, that are scattered through the remainder of the book, among deeds, wills, births, marriages, ear-marks, etc.

For the dates of such meetings, see the table at the beginning of this volume.]

[In the original volume the following entries begin at the end opposite to that used for town meetings. Thus the page now numbered 208 becomes the first page of the book when reversed. It is preceded by the stubs of at least five pages, on some of which can be perceived entries so fragmentary as to be unintelligible.]

These may Mannifest unto all whome it may Concerne that whereas upon the Complaint of of William Brownell of this Towne of portsmouth, made unto the Majestrats, against Mary the wife of John Hoomeyhoo, dwellinge in the Same Towne: Raissed and Reported by the Said Mary against the Said William Brownell, much tending to the disgrace disparagement and great Reproach of the Said William Brownell in Sayinge, that if the mare of John Tripp jun^r were dead, William Brownell had bugged her to death, Whereupon the Said Mary Hoomeyhoo, being by warrant brought, before the Majestrates for Examination of the truth thereof, it beinge a Charge of a high Nature if true, and accordingly being Examined, She at first^{positively} with Confidence denied that ever she had Spoken any Such words of the Said William Brownell, but at length it beinge by two Evidences (Viz: John Tripp jun^r and Thomas page) atested that She had Soe Reported, She then owned it and Confessed she had Soe Said, and whereas She had Said to one of the Testamonys that her husband told her what she had Reported She owned She had Soe done but in that alsoe She had Spoken that was falce, for Neither her husband nor any one Else had soe told her but it was a Matter made by her selfe, and declared she Knew noe Such Evill by the Said William Brownell, whereby she Should Raise any Such falce Reports of him and therefore Confessed she had done the Said William Brownell great wrong, and desired that She beinge a poor woman the matter might upon her Confession be past by without further trouble. [**351**] Wee whose Names are hereunder Subscribed beinge chossen and Empowred by the Towne of portsmouth at their meetinge held the 10th day of October 1673 to Isue differences between Neighbour and Neighbour in Refferance to devission lines of Lands adjoyneinge. Wee upon the Complaint of David Vahan that Ensign Hugh Moisser doth intrench on, and lay claime to Lands more than justly due: Have this day mett, and heard the Aligations on both parts, and have Requested of each

to Make their due title Mannifest, to which the Said Moisser Refussed, Sayinge the Law only Should, decide it; And Wee by due information, and Knowlidge findeinge that the Said Hugh Moisser hath Extended his bounds, and layd his fence within the bounds of the lands belonginge to the Said David Vahan, by him purchased of the deceased John Anthony, beinge layd out and bounded ^{by the then lotters} by Such remarkeable marked trees as they Saw cause. And wee upon the Veiwinge of the Same, doe See just Cause to owne three trees to be the true and proper Marke trees of the Southermost line of the Said David Vahans land, the Westerly Corner tree is a white Oake, the Easterly Corner tree a black Oake, between which there is a ^{wind} falne redd Oake from which Said faln red Oake on both lines East and west wee have Staked out a Straight line; which accordinge to the best of our judgments, and by the power above-said wee declare to be the due and proper line of the Said David Vahans Land on the Southerly Side thereof, And In Witnes hereof wee have hereunto Sett our hands the 14th day of ffebruary 1676
